Operating Revenues Receipts

VARIANCE ANALYSIS FOR MAJOR REPORTED ITEMS

At the end of June 2023, cash receipts totaled \$633.9 million, or 75.2 percent of the FY 2023 Revised Budget. The YTD Revised Budgeted receipts were \$631.8 million. The total receipts for June were \$56.4 million as compared to the budgeted \$52.6 million. Several categories of customers make payments on a quarterly basis, including the Federal Government (which made their third quarterly payment in April), and wholesale customers (who made third quarterly payment in May 2023).

Areas of Over-collection	Areas of Under-collection
<p>Residential, Commercial and Multi-Family – Receipts for this category are slightly higher at \$364.4 million or 76.5 percent of the Revised Budget. The June 2023 receipts were higher by \$0.3 million, or 0.8 percent as compared to the monthly Budget of \$39.7 million.</p> <p>DC Housing - Receipts are slightly higher at \$13.6 million or 95.7 percent of the Revised Budget. The June 2023 receipts are higher by \$1.7 million as compared to the monthly Budget of \$1.2 million because the DC Housing Authority made the payment for June billed amount early in June instead of July 2023.</p>	<p>Federal - Actual receipts through June 2023 total \$62.9 million or 74.2 percent of the Revised Budget. The Federal government made their third quarter payment in April 2023. The lower actual Federal receipt is due to disputed accounts of Soldiers Home.</p> <p>District Government – Receipts are lower at \$15.2 million or 65.3 percent of the Revised Budget. The June 2023 receipts are slightly lower at \$1.7 million as compared to the monthly Budget of \$1.9 million.</p> <p>Wholesale – The receipts were \$75.4 million or 72.1 percent of the Revised Budget. The lower receipt is mainly due to the higher Revised Budget as compared to the previously Approved Budget. The budget difference of \$ 7.4 million is expected to be recovered in the fourth quarter.</p> <p>PILOT/ROW – The receipts for PILOT/ROW are slightly lower at \$17.3 million or 74.9 percent of the Revised Budget. The June 2023 receipts are slightly lower by sixty-eight thousand dollars as compared to the monthly budget of \$1.7 million.</p> <p>Other Revenue - Receipts are lower at \$35.3 million or 67.5 percent of the Revised Budget. This is due to lower receipts for Interest Earnings, System Availability Fee and Washington Aqueduct Backwash. The June 2023 receipts are slightly higher at \$5.3 million as compared to the revised budget of \$3.4 million.</p>

VARIANCE ANALYSIS FOR MAJOR REPORTED ITEMS

Total operating expenditures for this period (including debt service and the Right-of-Way & PILOT fees) totaled \$473.2 million or 68.9 percent of the FY 2023 Revised budget of \$686.4 million. The revised budget includes budget reprogramming effected from the Cash Financed Capital Improvements (CFCI) to cover cost pressures in the O&M category, mainly for chemicals and energy. These numbers include estimated incurred but unpaid invoices and are subject to revision in subsequent months.

Areas of Underspending	Areas of Overspending
<p>Personnel Services – YTD spending is consistent with the current vacancy rate and includes increased overtime to respond to emergency repairs. Of the 1325 positions authorized, 1130 were filled at the end of June with a vacancy rate of 13.6 percent. The YTD active vacancy rate (based on vacant positions under active recruitment) is 8.1 percent. Management reviewed Authority-wide vacancies to better understand the positions needed to support business operations. A total of 16 positions were identified as hard-to-fill and/or positions not needed at this time. These positions are excluded from the vacancy rate calculation and will be eliminated from the authorized headcount.</p> <p>Contractual Services – Consistent with previous reports. Spending is in line with expectations throughout the Authority at this time of the fiscal year.</p> <p>Water Purchases – Reflect DC Water’s share of Washington Aqueduct expenditures (approx. 75 percent).</p> <p>Supplies & Chemicals – Spending is aligned with the budget. We will continue to monitor the impact of inflation and supply chain constraints on chemicals and critical spare parts throughout the rest of the fiscal year.</p> <p>Debt Service – YTD underspending is mainly due to a credit released from the 1998 Debt Service Reserve Fund in excess of the requirement.</p>	<p>Utilities – Overspending is primarily due to the increase in water usage. Water leakage discovered and has been resolved.</p> <p>Small Equipment – Higher spending is due to the rental of large equipment vehicles as purchasing has been hindered by supply chain issues.</p>

At the end of June 2023, capital disbursements totaled \$283.6 million or 56.6 percent of the Revised FY 2023 budget.

Capital Projects	Additional Capital Programs
<p>Capital project YTD disbursements remain lower than expected primarily due to project delays and closeouts, permitting, and invoice lags. However, an uptick in spending is anticipated during the latter part of the fiscal year.</p> <p>Overall project performance will be reviewed in detail as part of the quarterly CIP update by the Department of CIP Infrastructure Management to the Environmental Quality & Operations and Finance & Budget Committees in September 2023.</p>	<p><u>Capital Equipment</u> – Lower YTD disbursements are primarily due to the delay in delivery of Fleet equipment and underspending in the Ongoing Meter Replacement program.</p> <p>Spending is expected to increase in the fourth quarter for unused funds in the Authority-wide reserves, replacement of pumps, motors, and other capital equipment items.</p> <p><u>Washington Aqueduct</u> – The third quarter payment of \$8.9 million was received and paid in June.</p>

Notes: The increase in the accounts receivable over 90 days (from the billing date) is due to the temporary suspension of collections procedures because of the new billing system VertexOne, which was implemented in December 2017. The increase in accounts receivable from March 2020 to September 2022 is primarily due to increased delinquencies and deferred payments due to the impact of COVID-19.

Customer Communication

Statements are provided to customers when there is activity on the account. To ensure that all customers are aware of the balances, statements are also mailed annually irrespective of whether there is an activity on the account. For the last three years, annual statements were mailed to customers on April 28, 2023, January 25, 2022, and February 25, 2021

By law, refunds are to be requested by the account owner within two years of completion (DC Code § 34–2401.10). If not requested in that time frame, these accounts can be forfeited and closed. DC Water has placed a statement on invoices beginning in November 2019 notifying customers of the District law and that funds would be forfeited unless a refund is requested within two years of project completion or account inactivity. A notification to customers that is posted on our website indicates that unless a refund was requested, funds would be forfeited for projects without activity for ten years. AOBA and DCBIA have been asked to notify their membership to examine the invoices.

For accounts that were forfeited, zero balance statements were mailed out on Monday, August 16, 2021, and September 21, 2022.

Refund Requests

In response to the annual account statements provided to customers, a significant number of refund requests have been submitted. DC Water has brought on additional resources to review and process these refund requests. Along with new leadership assigned to the Permit Operations department, we have hired several new staff members, and we have used an existing contract for short term support to further these efforts.

To fully address the backlog of refund requests, DC Water recently completed a solicitation proposal process and has hired a contractor to provide support services. This contractor has been tasked with assisting DC Water to handle the backlog with an expedited schedule of completion in 6 months. This new contract has been executed, and a kick-off meeting was held the week of July 17th. A new database tool has also been developed to better manage the total accounts from the various legacy permit management systems from previous years, and will be used to track refund requests and completed refunds going forward. Details on the refunds requested and processed will be reported to the DC Retail Water and Sewer Rates Committee and Finance and Budget Committee in future reports.
