District of Columbia Water and Sewer Authority
Department of Water Services
Division of Water Quality
Cross-Connection Program
3900 Donaldson Pl, N.W., Washington, D.C. 20016

DCWASA does not provide test tags. Tags maybe of any format or style, but must display the test firms name and address; location, type, manufacturer, serial number, and size of assembly; test date, tester initials, certification number; and the indication if the assembly passed or failed.

Below is an example of tag with required information
