### VARIANCE ANALYSIS FOR MAJOR REPORTED ITEMS

At the end of February 2016, cash receipts totaled \$253.7 million, or 43.7 percent of the revised FY 2016 budget. Several categories of customers make payments on a quarterly basis, including the Federal Government and wholesale customers.

Residential, Commercial and Multi-Family – Receipts for this category are higher at \$134.7 million or 43.2 percent of the revised budget. The higher receipts are on account of collection of \$2.6 million on October 5, 2015 (FY 2016) from DC Events/Sports Authority, which falls under Commercial category, following resolution of the dispute with D.C. Government regarding the Clean Rivers Impervious Surface Area Charges (CRIAC) associated with RFK stadium.

District Government – Receipts are slightly higher at \$7.3 million or 47.9 percent of the revised budget. The increase in municipal payment is on account of (a) collection from (DCPA) Federal National Capital Region of prior year's short payment of approximately \$0.5 million, and (b) stormwater adjustment of approximately \$0.7 million with respect to the resolution of the dispute of the Clean Rivers Impervious Service Area Charges (CRIAC) associated with RFK stadium.

DC Housing – Receipts are higher at \$4.1 million or 50.4 percent of the revised budget. The DC Housing Authority did not pay the August billed amount of \$807,477.89 in September. The overdue amount was collected in October (FY2016), which resulted in higher receipts compared to the revised budget.

Water System Replacement Fee – Receipts are lower at \$10.3 million or 25.8 percent of the revised budget. The lower receipts for this new fee are due to (a) partial billing of WSRF for the month of October 2015, (b) time lag for collections, which follow billings by a month and (c) non-receipt of WSRF for Federal category since the 2016 Federal Bill, prepared in April 2014, did not include account-wise estimates for WSRF. The FY 2016 WSRF will be trued-up in FY 2019 Federal Bill.

Wholesale – Receipts are higher at \$41.0 million or 51.6 percent of the revised budget. Wholesale customers made their second quarterly payment in the month of February 2016.

Other Revenue – Receipts are lower than the straight-lined budget at \$10.8 million or 34.3 percent of the budgeted category primarily due to IMA Indirect Cost Reimbursement, which is not anticipated to be received until the fourth quarter of the fiscal year.

#### VARIANCE ANALYSIS FOR MAJOR REPORTED ITEMS

Operating expenditures totaled \$188.7 million, or 34.8 percent of the FY 2016 budget of \$541.6 million, and are in line with expectations through this reporting period. These numbers include estimated, incurred but unpaid, invoices and are subject to revision in subsequent months.

Personnel Services – YTD expenditures of \$58.3 million, or 41.7 percent of budget, is consistent with expectations and increased hiring efforts to reduce Authority-wide vacancies. Of the 1260 positions authorized, 1131 positions were filled with YTD vacancy rate of 10%. Overtime spending totals \$3.0 million of the annual budget of \$6.6 million, which is slightly higher than historical trends due to the impact of “Snowzilla” experienced in January.

Contractual Services – As previously reported, underspending is attributable to various contracts throughout the Authority, which is typical at this time of year due to fiscal year startup. This includes materialized savings from biosolids hauling costs and impact of the delayed fee to operate the CHP project, which is undergoing acceptance testing to meet established performance requirements. The YTD average biosolids production is 602 wet tons/day.

Supplies & Chemicals – YTD underspending is primarily from chemicals due to reduced Plant flow and changes in the treatment process. The treatment process now utilizes less chemicals like lime and polymer to control alkalinity and pH balance, and uses thermal hydrolysis and the Digester system’s intense heat and pressure to treat wastewater.

Utilities – YTD underspending is consistent with expectation for onsite electricity generation from the CHP project, which became operational in the summer of 2015. Due to the CHP downtime in February, there were increases in the natural gas and electricity usage during this period with ongoing review of the fiscal impact. Other area of underspending include lower than originally anticipated automobile fuel costs due to the global decline in the oil market prices. Given recent uptick in fuel prices, staff will continue to monitor the potential impact, if any.

Debt Service – YTD actual debt service is trending lower than budget primarily due to current interest rates being lower than forecast. The recent refunding will also lower debt service for FY 2016.

### VARIANCE ANALYSIS FOR MAJOR REPORTED ITEMS

At the end of February 2016, capital disbursements are \$239.9 million or 43.7 percent of the FY 2016 budget.

Capital Projects - Project performance will be reviewed in detail as part of the quarterly CIP update by the Department of Engineering & Technical Services (DETS) to the Environmental Quality & Sewerage Services and Finance & Budget committees in May 2016.

Capital Equipment - Lower than planned disbursements are driven by the unspent reserve funds in Finance, Accounting and Budget to accommodate requests for Authority-wide projects and IT reserve funds for enterprise technology initiatives. An update of the Authority's Strategic Plan for IT initiatives is anticipated for review at the Environmental Quality and Sewerage Services Committee meeting in March.

Washington Aqueduct (WAD) - No disbursement to date represents WAD's plan to postpone customer billing until March to draw down the pre-paid balances currently in escrow and US Treasury accounts.

*JUNE 2002 – DC WATER INITIATED CREDIT/DEBIT CARD PAYMENTS*

# Contract Extension Considerations

- The credit card acceptance and process is linked to the current customer information system (CIS)
- Any change in vendor will result in a change to the current processing requirements within CIS
- Extending the current credit/debit contract till May 31, 2018, will allow time for the issuance of a new request for proposal, evaluation, and conversion
- A new CIS is projected to be completed by October 2017
- Recommendation - Extend Bank of America contract two years through May 2018 (\$1,080,000)
