Fiscal Year 2020

Monthly Financial Report

Period Ending April 30, 2020

DEPARTMENT OF FINANCE

Matthew T. Brown, CFO & Executive Vice President, Finance and Procurement Ivan Boykin, Director, Finance Syed Khalil, Director, Rates & Revenue Genes Malasy, Controller (Acting) Lola Oyeyemi, Director, Budget

APRIL 2020

EXECUTIVE SUMMARY

As of the end of April 2020, with approximately 58 percent of the fiscal year completed, we are on track with budgetary expectations and targeted performance metrics.

Highlights:

- Completion of preliminary FY 2020 year-end projections. Management will provide detailed discussion on major budget drivers at the Committee meeting.
- Management continues to assess the impact of COVID-19 on the Authority's revenues and develop strategies to reduce spending while focusing on critical purchases necessary for the continuity of operations. Updates will be provided at the Committee meeting as part of the mid-year projections presentation.
- Annual Property & Casualty Insurance Renewals Ongoing negotiations on pricing and coverage with completion anticipated by June 28 to meet July 1, 2020 renewal date.
- In February, we informed the Committee there would be a Board action for the ROCIP 5 Broker/Administration services in April. COVID-19 caused delays to our timeline and the procurement was extended. We have received multiple proposals and interviews are being conducted the week of May 11th. We anticipate the action item will be presented at the June Finance & Budget Committee meeting.

• DC Water continues to advance Phases 1 and 2 of the ERP system according to the original schedule. Staff and contractors are using technology to meet, collaborate, and implement the Financials (Phase I) and Advanced Procurement (Phase 2). Because of COVID, DC Water has decided to delay the start of Phase 3, Human Capital Management, and Phase 4, Budgeting. More information will be presented to the Committee when a new start date is determined, though it is anticipated that this will be by November 2020.

Matthew T. Brown, Executive Vice President & Chief Financial Officer

Fiscal Year-to-Date As of April 30, 2020

VARIANCE ANALYSIS FOR MAJOR REPORTED ITEMS

At the end of April 2020, cash receipts totaled \$418.9 million, or 59.9 percent of the FY 2020 budget. Several categories of customers make payments on a quarterly basis, including the Federal Government (which made their third quarterly payment in April), and wholesale customers (who made their second quarter payment in February).

Areas of Overcollection	Areas of Undercollection
<u>Residential, Commercial and Multi-Family</u> - Receipts for this category are higher at \$235.2 million or 58.9 percent of the budget. The higher receipts are due to increased year-end billing of the unbilled accounts.	<u>Wholesale</u> – The wholesale customer actual receipts through April 2020 total \$41.0 million or 49.7 percent of FY 2020 budget. The wholesale
<u>Federal</u> - Actual receipts through April 2020 total \$54.2 million or 75.4 percent of the budget. The Federal government made their third quarter payment in April 2020.	customers are expected to make their third quarter payment in May 2020.
<u>District Government</u> – Receipts are slightly higher at \$10.3 million or 58.7 percent of the budget due to higher CRIAC receipts than the budget.	
<u>DC Housing</u> - Receipts are slightly higher at \$6.4 million or 60.9 percent of the budget.	
<u>Other Revenue</u> - Actual receipts through April 2020 total \$27.0 million or 60.3 percent of the budget category. The receipts are higher primarily due to (i) \$1.7 million payment received in October 2019 from the District Government for the fourth quarter 2019 short-payment of Fire Protection Service Fee that was due in August 2019 and (ii) higher Development Contractor Water and Sewer Service Fees. The District Government paid \$3.1 million in March 2020 for the second quarter Fire Protection Service Fee.

VARIANCE ANALYSIS FOR MAJOR REPORTED ITEMS

Total operating expenditures for this period (including debt service and the Right-of-Way & PILOT fees) totaled \$311.9 million or 50.8 percent of the FY 2020 Board-approved budget of \$614.5 million. These numbers include estimated incurred but unpaid invoices and are subject to revision in subsequent months.

Areas of Underspending

<u>Personnel Services</u> – Underspending is primarily due to vacancies and lower than anticipated benefits costs. Of the 1226 positions authorized, 1094 were filled at the end of April with a vacancy rate of 11 percent. Overtime is at \$4.4 million or 54.7% of the annual overtime budget.

<u>Contractual Services</u> – Spending is in line with expectations at this time of the fiscal year and expected to remain low throughout the remainder of the fiscal year as expenses are curtailed to ensure as we are only allowing critical and COVID-related expenditures.

Water Purchases - Reflect DC Water's share of Washington Aqueduct expenditures.

<u>Supplies & Chemicals</u> – Underspending is due to lower than anticipated price of major chemicals and decreased usage due to normalized weather pattern.

<u>Utilities</u> – Underspending is primarily due to lower than budgeted electricity unit prices. A total of 15MW of the Authority's electric load is locked at an average Western Hub price of \$29.81/MWh for the remainder of the fiscal year.

<u>Debt Service</u> – YTD underspending is due to the refunding of the 2013 Series A bonds of roughly \$2.4 - \$2.7 million, and lower projected debt service cost consistent with the FY 2021 adopted financial plan.

VARIANCE ANALYSIS FOR MAJOR REPORTED ITEMS

At the end of March 2020, capital disbursements are \$181.9 million or 40.2 percent of the FY 2020 revised budget.

Capital Projects	Additional Capital Programs
Overall project performance will be reviewed in detail as part of the quarterly CIP update by the Department of CIP Infrastructure Management to the Environmental Quality & Operations and Finance & Budget Committees in May 2020.	<u>Capital Equipment</u> – Lower YTD disbursements are primarily attributable to the delay in procurement and delivery of Fleet equipment and the Enterprise Resource Planning (ERP) and other major equipment. Fleet purchases are affected by longer lead times due to various factory closures. The Automated Meter Infrastructure (AMI) project has been suspended until June due to the COVID-19 pandemic <u>Washington Aqueduct</u> The third quarter invoice of \$6.3 million was received in April 2020, with an anticipated payment in May 2020.

Retail Accounts Receivable (Delinquent Accounts)

The following tables show retail accounts receivable over 90 days including a breakdown by customer class.

Greater Than 90 Days by Month

	\$ in millions	# of accounts
September 30, 2012	\$5.5	13,063
September 30, 2013	\$4.9	11,920
September 30, 2014	\$5.3	12,442
September 30, 2015	\$6.5	11,981
September 30, 2016	\$7.7	12,406
September 30, 2017	\$8.4	11,526
September 30, 2018	\$13.4	16,273
September 30, 2019	\$10.6	8,744
October 31, 2019	\$11.0	8,985
November 30, 2019	\$11.5	9,153
December 31, 2019	\$12.3	10,214
January 31, 2020	\$12.1	9,612
February 29, 2020	\$12.0	9,561
March 31, 2020	\$12.8	9,933
April 30, 2020	\$14.2	11,908

Notes: The increase in the accounts receivable over 90 days is due to the temporary suspension of collections procedures because of the new billing system VertexOne, which was implemented in December 2017.

DC Water

Investment Performance Report – April 2020

DC Water Finance Division Economic Update

ECONOMIC COMMENTARY

- Gross Domestic Product ("GDP") for the first quarter of 2020 decreased at an annual rate of 4.8%, which was below economists' estimates of a 4.0% contraction, and officially puts an end to the nation's longest expansion streak in history. The decrease in growth is the first negative GDP reading since 2014 and is sharpest contraction since the Great Recession in 2008. Consumer spending has propped up U.S. GDP for several quarters now. But, as the nation grapples with a global pandemic and unprecedented unemployment levels, consumption slumped in the final weeks of the quarter, dragging the overall reading down into negative territory. Economists are expecting growth to slow even further for the current quarter, as the full effect of COVID-19 materializes.
- The Federal Open Market Committee ("FOMC") elected to maintain their target rate range of 0.00% to 0.25% at their April meeting, as anticipated. Fed Chair Jerome Powell appeared less than optimistic about a swift recovery for the nation's economy, stating that even with wishful signs of near-term growth as states begin to reopen, "it's unlikely it would be bring us quickly back to pre-crisis level." Powell reinforced the Fed's ongoing commitment to use its full range of tools to support the economy, and bluntly stated that rates are likely to remain near zero for the foreseeable future.
- The U.S. Bureau of Labor Statistics is scheduled to release April labor market statistics on Friday, May 8th. Economists estimate that 21 million jobs were lost during the month, which would bring the unemployment level up to a staggering 16.0%. Initial jobless claims for the week ended April 25 registered at 3.8 million, which is its lowest level in a month, but brings the six-week total to 30.3 million. Florida, California, Georgia, Texas, and New York recorded the largest initial claims.
- U.S. Treasury yields declined slightly month-over-month as investors fled to quality and increased the overall demand for safe haven assets. Concerns over the coronavirus continue to plague the markets with little sign of relief.

PORTFOLIO RECAP

- The portfolio is diversified among Bank Deposits, U.S. Treasuries, Federal Agencies, Mortgage-Backed Securities, Commercial Paper, Supranational Bonds, Negotiable CDs, Corporate Notes/Bonds, Municipal Bonds, FDIC Insured CDs, and SEC registered money market funds.
- > The overall yield-to-maturity on cost of the portfolio is 0.92%.

Operating Reserve

- The investment advisor (PFM) purchased \$2.5 million of a 3-year Freddie Mac note at a yield of 0.46%.
- In the middle of April, value was also found in \$0.5 million of Supranational issuance in the 3-year range, which offered a 0.51% yield.
- Later in the month, \$0.5 million of a 3.5-year municipal note was purchased at a competitive 1.03% yield.

2019B Construction Fund

• PFM purchased \$2.3 million of a 5-month commercial paper issue at a 1.06% yield.

2019C Construction Fund

• During the month, PFM purchased \$6.0 million of commercial paper from various issuers in the 6-month maturity range, which offered a combined weighted average yield of 0.82%.

COVID-19 Weighs on FOMC's Economic Outlook

- The Federal Reserve is *committed to using its full range of tools to support the U.S. economy* in this challenging time.
- The coronavirus outbreak is causing *tremendous human and economic hardship* across the United States and around the world. The virus and the *measures taken to protect public health are inducing sharp declines in economic activity and a surge in job losses*.
- The ongoing public health crisis will weigh heavily on economic *activity*, employment, and inflation in the near term, and poses considerable risks to the economic outlook over the medium term.
- In light of these developments, the Committee decided to maintain the target range for the federal funds rate at 0 to 0.25%. The Committee expects to maintain this target range until it is confident that the economy has weathered recent events and is on track to achieve its maximum employment and price stability goals.
- The Committee will continue to monitor the implications of incoming information for the economic outlook, including information related to public health, as well as global developments and muted inflation pressures, *and will use its tools and act as appropriate to support the economy*.

Source: Federal Reserve, as of 4/29/20.

- The U.S. Treasury yield curve remained relatively unchanged month-over-month as the Federal Reserve reaffirmed that the current monetary policy is appropriate.
- The slight decrease in yields can be largely attributed to the continued 'flight to quality' as economic releases this month reflected a struggling economy.

District of Columbia Water and Sewer Authority

Capital Improvement Program Report

FY-2020 2nd Quarter January 1st through March 31st, 2020

Board of Directors Environmental Quality and Operations Committee

David L. Gadis CEO and General Manager Leonard R. Benson, Senior Vice President CIP Project Delivery May 2020

CIP Disbursement Performance

Current projected program disbursements through the end of the fiscal year compared with the FY20 baseline are shown in the chart below:

Disbursement Summary

Current projected fiscal year 2020 CIP disbursements are \$355,386,000 through the end of September 2020, which is on track to be under the baseline disbursement ceiling of \$405,004,000.

Current disbursement projections within the service areas are as follows:

Non-Process Facilities

Baseline Disbursements	\$42,066,000
Projected Disbursements	\$14,349,000 (\$27.7M below baseline projection)

This underspending is mainly due to the delay in receiving funds and subsequent awarding of the Fleet Facility and Sewer Headquarters construction contracts. Spending is not expected to fully recover this fiscal year.

Page 2 of 8

Wastewater Treatment Service Area

Baseline Disbursements\$77,536,000Projected Disbursements\$73,424,000 (\$4.1M below baseline projection)

Significant project variances are listed below:

- Biosolids Program Area (\$3.2M below baseline)
 - The forecast disbursements for project BX Gravity Thickener Upgrades Ph II are \$4.3M less than the baseline, mainly attributable to initial delay in the contract billing.

The spending through the 2nd quarter is \$20.1M, which is \$25.4M below the baseline. This is from the underspending as noted above and in the Liquid Processing Program Area (\$6.3M) where disbursements for Upgrades to Filtration Influent Pumps 1-10 and Replacement of Influent Screens were lower than anticipated during the construction startup period. Additionally, lower disbursements in the ENR Facilities Program Area (\$10.5M below baseline) are due to continued negotiation to close out the contract for the Tunnel Dewatering Pumping Station/Enhanced Clarification Facility, which had been planned to be closed out in the 1st quarter. The spending on these projects is expected to recover partially by the end of the fiscal year.

For clarity, the Combined Sewer Overflow (CSO) Service Area comments are addressed separately by the CSO and DC Clean Rivers Program Areas

CSO Service Area

Baseline Disbursements\$7,952,000Projected Disbursements\$6,913,000 (\$1.0M below baseline projection)

There are no significant project variances for this service area currently projected over the fiscal year

DC Clean Rivers Program Area

Baseline Disbursements\$162,197,000Actual Disbursements\$165,941,000 (\$3.7M above baseline projection)The DCCR team currently anticipates the spending to meet the baseline forecast by year end.

There are no significant project variances for this service area currently projected over the fiscal year.

Stormwater Service Area

Baseline Disbursements	\$6,869,000
Projected Disbursements	\$4,126,000 (\$2.7M below baseline projection)

Significant project variances for this service area below

• Stormwater Pumping Facilities Program Area

Page **3** of **8**

Project NG00 - Stormwater Pump Stations Rehabilitation forecast disbursements are \$2.3M below the baseline forecast due to a delayed start to the Miscellaneous Facilities Upgrade - 7 construction contract, and delays in the construction start of the Kenilworth Avenue Stormwater Pump Station upgrade project being undertaken by DDOT.

Sanitary Sewer Service Area

Baseline Disbursements\$44,934,000Projected Disbursements\$35,607,000 (\$9.3M below baseline projection)

Significant project variances are listed below:

- Sanitary Ongoing Program Area (\$3.6M below baseline)
 - This area is below the forecast but within the expected limits of the forecasting accuracy as the size and type of emergency repairs to the sewer system are difficult to predict year on year.
- Sanitary Collection Sewers Program Area (\$2.2M below baseline)
 - The changing DDOT permit requirements caused underspending in Project QX Local Sewer Assessment. As a result of these changes, price proposals for work have been well above estimates and have not been awarded.

Water Service Area

Baseline Disbursements	\$62,163,000
Projected Disbursements	\$55,092,000 (\$7.1M below baseline projection)

Significant project variances are listed below:

- Water Distribution System Program (\$6.3M below baseline projection)
 - Part of the program underspending is mainly attributable to delays in closing out Small Diameter Water Main contracts in Project DE - Small Diameter Water Main Rehabilitation 12 and Project O3 - Small Diameter Water Main Rehabilitation 11.
 - Forecast disbursements for Project GR Small Diameter Water Main Rehabilitation 15 are \$1.9M less than the baseline due to delays in the DDOT contract billing for work currently underway.

Priority 1 Projects (Court Ordered, Stipulated Agreements, etc.)

All priority 1 projects are on schedule and within budget.

Significant Contract Actions Anticipated – 6 Month Look-Ahead

Project	Name	Contract Type	Joint Use?	Cost Range	Committee	BOD
F100	Small Diameter Water Main Repl. 13c	Construction	No	\$5M - \$10M	EQ & Ops May	Jun

ATTACHMENT 3

FY 2020 Operating and Capital Budget (Year-End Projections)

Presentation to the Finance & Budget Committee Matthew T. Brown, CFO & EVP, Finance & Procurement May 28, 2020

PURPOSE

- Provide an update on the fiscal impact of the COVID-19 pandemic
- Oiscuss preliminary year-end revenue and expenditure projections
- Seek Committee's recommendation to the Board on proposal (consistent with Board-approved financial plan):
 - Reduce FY 2020 operating budget for debt service by \$8.0 million
 - Transfer \$8.0 million FY 2020 projected debt service cost savings to the Rate Stabilization Fund
 - This will be combined with \$5.599 million in projected
 FY2019 unexpended CAP2 funds, and withdrawn in FY2021
 and FY2022, consistent with the Board-adopted financial plan

COVID-19: EXTERNAL FACTORS

- Customer Focus
 - Reconnected customers and suspended customer disconnections for non-payment
 - Suspended late fees
 - Partnered with District for the Emergency Relief to District residents
- Overall consumption decline of about nine percent
 - Residential, Multi-family, and DC Housing Authority consumption is up
 - Commercial, Municipal, and Federal consumption is down
- Revenue (Cash Receipts) Impacts
 - Increase in delinquencies
 - Decrease in Permit Fees, Development Contractors Fee (water and sewer), Late Fees, System Availability Fee and Waste Hauling Disposal Fees

DC WATER REMAINS STRONG

- A Robust Reserves
 - 250+ Days of Cash, including Rate Stabilization Fund
- Retail rates are a combination of fixed and variable revenues
 - About 25% of overall revenues are from fixed fees like the metering fee and the Clean Rivers Impervious Area Charge
- Much of the Operating Budget is fixed, but there is some flexibility
 - Deliberate approach to hiring, in place before COVID
 - Water purchases down slightly, reflecting overall decline in consumption
- Increased Capital Program Flexibility
 - Mandated programs are a smaller part of the current ten-year capital program
 - Water and sewer infrastructure investment

FINANCE GUIDING PRINCIPLES

DC Water adopted the following 3 P's for spending during the COVID-19 pandemic -

CONSUMPTION

Consumption Trend Based on Five Month Average and Changes for March through 2nd week of May (Star System Data)

CONSUMPTION TRENDS

Consumption Trend Based on 5 Month Average and % Changes for March through 2nd week of May as per Star System Data

7

Finance and Budget Committee - 5. FY 2020 Year-End Projections (Attachment 3) -Matthew T. Brown

FY 2020 YEAR-END PROJECTIONS

FY2020 ESTIMATE - REVENUES

6 FY 2020 Estimate

- \$35.2 million revenue (cash) shortfall anticipated, 5.0% below \$698.979 million budget
 - \$35.5 million below budget for commercial, residential, and multi-family
 - Assumptions for May through September: 37% decline in consumption for commercial at a 5% increase for residential and multi-family
 - \$600,000 monthly loss from not charging late fees and \$1 million each month for delinquencies
 - Forecasted May through September 30% decline for municipal (\$1.5 million under budget) and 5% increase for the housing authority (\$0.14 million over budget); federal revenue based on previous estimates and will be at budget
 - Metering Fee and Water System Replacement Fee revenue is anticipated to be above budget because of conservative budgeting
 - Other revenue assumptions include reductions in System Availability Fee (anticipated \$2.8 million below budget) and interest

FY2020 ESTIMATE – EXPENDITURES

FY 2020 Estimate

- Savings through April from hiring restrictions, savings in chemicals, utilities and water purchases
- Worked with Departments to prioritize critical expenditures through the end of the Fiscal Year
 - Deferred proactive inspections, repairs and maintenance on equipment based on modified shift schedules (\$2.4 million)
 - Delayed components of major programs and initiatives with minimal risks and low impacts on service levels such as reduction in use of temps and staff augmentation contracts (\$3 million)
 - Reduced hours for professional services e.g. field controllers, calibration & instrumentation, low voltage, automotive maintenance, internal audit etc. (\$2 million)
 - Reduction in various services based on lower than anticipated costs for litigation, claims, biosolids hauling, software maintenance and claims, with risks being monitored (\$2 million)
 - Reduced purchase of office supplies, custodial supplies, promotional items and specialized equipment (\$0.3 million)
 - Suspended DC Water sponsored events, travels, training and conferences due to COVID-19 pandemic (\$0.7 million)
- Reduction in PAYGO for capital program

OPERATING REVENUES (\$000'S)

FY 2020 OPERATING EXPENDITURE: MAJOR VARIANCES

Total operating budget is projected at a net decrease of \$31.9 million or 95% of the approved budget:

- Personnel Services (\$7.2 million decrease) Reflects focus on critical hires and elimination of Summer Partnership Program. Overtime and employee benefits are expected to be below budget
- Chemicals & Supplies (\$2.6 million decrease) Projected underspending mainly due to lower unit prices for major chemicals (methanol, sodium bisulfite and ferric chlorite); coupled with relatively lower influent observed at the Plant in the earlier part of the fiscal year
- Utilities (\$1.0 million net decrease) Projection reflects underspending in electricity as a result of favorable prices (All in cost of \$74.95/MWh vs. budget of \$81.73/MWh), natural gas from relatively mild winter conditions, lower fuel expenditures and slightly lower water usage costs for treatment process improvement on the plant

FY 2020 OPERATING EXPENDITURE: MAJOR VARIANCES, CONT.

- Contractual Services (\$7.0 million net decrease) Projected underspending including equipment maintenance and repairs, professional services, software maintenance, janitorial contract, and claims; offset by higher spending for the new call center phone system and customer feedback system, litigation contingency, security guards, fire suppression activities and expenses for deep cleaning and sanitation
- Water Purchase (\$3.5 million decrease) DC Water's share of the Washington Aqueduct (WAD)'s budget (approximately 75%). Projected underspending due to lower water purchase rate and reduced quantity due to decline in water demand
- Small Equipment (\$0.3 million decrease) Projected underspending based on historical and current spending trends
- Debt Service (\$10.2 million decrease) Projected underspending due to refinancing, refunding and lower interest rates on existing debt. Approximately \$8 million reserved for Rate Stabilization Fund withdrawals in FY21 and FY22

OPERATING BUDGET: RISKS & OPPORTUNITIES

- COVID-19 Impact
- Personnel Services
- Water Purchase
- Legal Contingency
- Claims
- Utilities (CHP output and Automotive Fuel unit prices)
- Chemicals (unit prices and flows)

CAPITAL DISBURSEMENTS

Total capital disbursements is projected at a net decrease of \$58.1 million or 87% of the FY 2020 revised budget

Capital Disbursements (\$000's)									
Service Area	FY 2019 Actual	FY 2020 Budget				Projected % of Budget	FY 2021 Budget		
Non Process Facilities	\$ 8,529	\$ 42,066	\$ 5,190	\$ 14,349	\$ 27,717	34% \$	31,849

FY 2020 CAPITAL DISBURSEMENTS: MAJOR VARIANCES

- Capital Projects (\$49.6 million decrease) Lower projected disbursements mainly in the Non Process Facilities, Stormwater, Sanitary Sewer, and Water service areas. Detailed information on project performance and major drivers are included in this month's Quarterly CIP report
- Capital Equipment (\$6.1 million decrease) Reflects lower than planned use of Authority-wide reserves for capital equipment needs, and delay in the Enterprise Resource Planning (ERP) project, and further delays in the Automated Metering Infrastructure (AMI) project
- Washington Aqueduct (\$2.4 million decrease) Lower projected disbursements are primarily due to the delay in execution of scheduled projects (Old Conduit Rehabilitation, Basin 3&4 Improvements, and Rock Creek Blow-off Valve Replacement)

PROPOSAL TO TRANSFER FY 2020 DEBT SERVICE SAVINGS AND UNEXPENDED CAP2 FUNDS TO THE RATE STABILIZATION FUND

- Board-adopted FY 2020-2029 Financial Plan directed \$13 million of funds to Rate Stabilization Fund to be withdrawn in FY2021 and FY2022 to reduce impact of rates:
 - \$10.2 million in current year debt cost service savings
 - Proposed action: Transfer \$8.0 million projected debt service cost savings to the Rate Stabilization Fund
 - \$5 million of unexpended CAP2 funds
 - Revised estimate is that approximately \$5.599 million in CAP2 funds will remain at the end of the fiscal year:
 - Previous Board Direction was to transfer unexpended CAP2 funds to the Rate
 Stabilization Fund and the end of the fiscal year
 - Transfer approximately \$5.599 million in FY 2019 unexpended CAP2 funds to the Rate Stabilization Fund

RECOMMENDATION

Committee move to the full board:

- Revision to FY 2020 Operating Budget Reduce \$8 million in current year debt cost savings
- Transfer to Rate Stabilization Fund Transfer \$8.0 million FY 2020 projected debt service cost savings and \$5.599 million in FY 2019 unexpended CAP2 funds to the Rate Stabilization Fund (RSF)

FY 2020 BUDGET (YEAR-END PROJECTIONS)

July 1 Property & Casualty Insurance Renewals

May 28, 2020

Ivan Boykin, Director of Finance

Purpose

- Provide an informational update on DCW's insurance program.
- Seek Committee's recommendation on Board Action Item: July 1 insurance renewal at a total amount not to exceed \$3.5 million (vs. \$3.2 million expiring).
- Quotes were submitted May 19. Negotiation and evaluation of cost reduction opportunities will follow. The \$3.2 million amount is believed to be a conservative estimate based on broker feedback. Final negotiated costs will be provided at the June 25 Committee meeting.

Market Conditions

- DCW is on track to renew its Property/Equip, Flood, Cyber, Excess Workers' Compensation, Excess Liability, Employment Practices Liability, Public Officials' Liability, Crime, Fiduciary Liability, and Professional Liability insurance on July 1.
- Insurance market conditions rapidly worsened in late 2019 and 2020 YTD. Insurance buyers are presently experiencing the worst insurance market since the period following 9/11.

Property

- Despite fewer catastrophes in the U.S. in 2019, leading property insurers are still striving to regain profitability. Insurers cost of reinsurance continues to rise. Property rate increases intensified in the latter part of 2019.
- 2020 YTD premium rates increases are generally 15-25% on accounts with favorable loss history and without significant catastrophe exposure. Rate increases over 25% are common on accounts with high windstorm or flood risk.
- Flood coverage under the national flood insurance program continues to increase at similar rates due to many years of losses exceeding premiums. Private market flood options are much more costly.

Market Conditions

Liability

- The most dramatic rate increase and change in underwriting appetite is occurring in the Excess Liability insurance market. Insurers cite stronger anti-corporate sentiments among jurors and new developments in litigation funding as key drivers of larger and more frequent sizable verdicts. Advisen, an independent insurance data provider, cites a doubling of the median value of a single-death claim over the last five years.
- Insurers are insisting upon premium rate increases for low-hazard accounts in the 15-25% range, and over 25% for higher-hazard risks (e.g. large/heavy auto fleets). Additionally, insurers are reducing the limit they are willing to offer.
 \$25 million policies are being reduced to \$10 million with no commensurate premium reduction. Additional policy layers are required to achieve the same overall limit, with much greater premium cost.
- DCW benefits significantly from its relationships with two energy/utility mutual insurers (owned by policyholders). These insurers have been continuing to offer their members very large limits at more moderate rate increases.

Market Conditions

Management Lines

- Defense cost inflation and senior leadership handling and disclosure relating to COVID-19 is driving concern by directors' and officers' liability underwriters.
- Layoffs and furloughs amid stressed economic conditions, and recent year #MeToo legislation and litigation, is affecting the employment practices insurance market.
- Cyber insurance and crime coverage are affected by increased frequency and severity of losses. Most notably, phishing and ransomware are rampant. Ransom demands are increasing, in part due to availability of insurance monies to pay them.
- Depressed financial markets and low bond yields create pressure on employee retirement / pension funding, generating concern by fiduciary liability underwriters.

Premium Rating Bases

• In addition to market-driven premium rate increases, premiums adjust upward due to moderate increases in DCW revenues, property values, payroll and fleet.

Current Request

• We request the Board's approval to bind July 1 insurance renewal coverage at a total amount not to exceed \$3.5 million. An update with final terms will be provided.

Recommendation

That the Committee recommend to the Board – Authorize Management to bind insurance coverage pursuant to the established not to exceed figures

Appendix I Current Program – Jul 1, 2019-20

Coverage	Main Limit	Main Deductible / Retention	Insurer	19-20 Premium ¹

Appendix I (cont.) Insurance Coverages

Coverage	Summary Description
Property, Equip. and Boiler & Machinery	Provides blanket "all risk" coverage for direct physical damage to DC Water structures, buildings and contents.
National Flood Insurance	Government sponsored program that provides a modest amount of insurance protection at affordable premium levels. Coverage is subject to a maximum of \$500,000 for buildings and \$500,000 for contents, excluding underground property and subject to actual cash valuation.
Cyber/Data Security and Breach Notification	Provides coverage for third party liability and privacy notification expenses resulting from data breaches.
Excess Workers Compensation (WC) and Employers Liability (EL)	Provides excess statutory workers' compensation benefits over self-funded levels. EL covers liability from employee injuries that are not covered under workers compensation law. Very rare in DC.
Employment Practices Liability (EPL)	Provides protection for claims of discrimination, harassment, or wrongful termination.
Umbrella / Excess Liability	Provides protection for bodily injury, property damage, and personal injuries to third parties arising out of DC Water operations (GL) including use of automobiles (AL) in excess of self-funded levels. The Authority's policy also provides excess EPL coverage over self-insured levels.
Public Officials Liability (POL)	Provides reimbursement protection for wrongful acts (excl. bodily injury and property damage) that are actually or allegedly caused by DC Water directors, officers and employees within the course of their duties.
Crime & Fidelity	Employee dishonesty coverage and miscellaneous crime coverages.
Fiduciary Liability	Provides protection for wrongful acts that are actually or allegedly caused by trustees and employees of the DC Water sponsored Employee Benefit Plans.
Professional Liability	Provides protection for errors or omissions arising from engineering, consulting or testing services provided to third parties for a fee.

C Appendix II - Procurement Approach

Interim Years

Multi-year insurance contracts are generally not available in the present insurance market. On each annual policy renewal, a particular line of coverage is typically handled by the incumbent broker. That broker is generally granted full access to the market and asked to recommend a marketing strategy for the year, which the Authority must approve. However, the Authority reserves the right to use a multi-broker, assigned-market competitive process like the above in the interim years if challenging situations warrant. The Authority uses its independent insurance consultant as well as conduct its own due diligence to establish expectations.

dCó Appendix III - How Public Officials' (D&O) Liability Coverage Works

FINANCE AND BUDGET COMMITTEE

ACTION ITEM 6A: Proposal to Revise Fiscal Year 2020 Operating Budget for Debt Service from \$215.3 million to \$207.3 million.

In FY 2019, DC Water projected the FY 2020 Debt Service costs to be \$215.3 million. Due to the reissuance of older expensive debt, the FY 2020 Debt Service costs are estimated to be \$205.1 million, saving DC Water approximately \$10.2 million as follows:

- 1. cost savings of \$1.4 million due to lower actual variable rate costs than the planned variable rate costs for 2014B
- 2. cost savings of \$5.1 million due to lower actual debt service for 2019A, B &C Series than the planned debt service in the last year financial plan
- cost savings of \$3.7 million due to refunding of Series 2013A vs the new debt Series 2019D

\$8.0 million will be reduced from the current debt service budget.

DC Water will reserve the remaining \$2.2 million projected savings in the Debt Service line.

FINANCE AND BUDGET COMMITTEE

ACTION ITEM 6B: Transfer FY 2020 Projected Debt Service Cost Savings to the Rate Stabilization Fund (RSF):

1. Proposal to transfer \$8.0 million of FY 2020 debt service cost savings to the Rate Stabilization Fund (RSF).

DESCRIPTION AND PURPOSE

Year 1 Premium Values:	\$2,906,599.00
Year 1 Premium Dates:	07-01-2017 - 06-30-2018
Year 2 Premium Values:	\$3,220,000.00
Year 2 Premium Dates:	07-01-2018 - 06-30-2019
Year 3 Premium Values:	\$3,303,841.00
Year 3 Premium Dates:	07-01-2019 - 06-30-2020
One Year Extension Premium Values:	\$3,537,025.00
One Year Extension Premium Dates:	07-01-2020 - 06-30-2021

Purpose of the Contract:

Broker DC Water property and casualty insurance premiums.

Scope of Broker Services:

Three commercial insurance brokers were selected through a competitive Request for Proposals (RFP) process to provide various types of insurance brokerage services for DC Water. Services include securing on DC Water's behalf Property, Flood, Cyber, Pollution, Excess Liability, Excess Worker's Compensation, Employment Practices, Public Officials, Crime and Fidelity and Fiduciary insurance. These 3 brokers market/negotiate DC Water's insurance coverages and periodically compete with each other to bring DC Water the best insurance coverages and premiums. The requested premium amount will be distributed among the 3 brokers depending on which is successful in presenting the best coverage and lowest premium in each of the 10 categories. Their annual broker fees are shown below if selected in all the categories, however, fees are only paid to the placing broker:

Insurance Brokerage Firms	Annual Fee (if awarded all coverages)
Alliant	\$131,920.00
Aon	\$142,163.00
Willis Towers Watson	\$144,500.00

Spending Previous Year:

Cumulative Premium Values: Cumulative Premium Spending: 07-01-2017 - 06-30-2020: \$9,430,440.00 07-01-2017 - 05-12-2020: \$8,871,779.81

Contractor's Past Performance:

According to the COTR, the Contractor's quality of services; timeliness of responses; conformance to DC Water's policies, procedures and contract terms; and invoicing all meet expectations.

No LBE/LSBE participation.
