## Appendix B: Additional Monitoring Data

Tables B.1 and B.2 present results from the second draw samples collected at the time of the Lead and Copper Rule compliance sampling. Additional monitoring data presented in Attachment 2 to this report contains sample data collected from other WASA programs that focused on lead and/or copper or other metals that included lead sample results. A description of the program followed by the data set is included in Attachment 2.

DC WASA added 147 sites to the Sample Pool. The selection process started by randomly selecting 150 sites from the Lead Service Line inventory using the following criteria:

- Active accounts
- Lead service line
- Single family structure
- Evenly distributed among quadrants according to lead service line inventory

DC WASA removed three sites because they are already part of the LCR Sample Pool (1315 Franklin St NE, 3218 Morrison St NW, 3908 13th St NW).
