At the end of April 2025, cash receipts totaled \$575.7 million, or 60.5 percent of the FY 2025 revised Budget. The YTD budgeted receipts were \$560.1 million. Several categories of customers make payments on a quarterly basis, including the Federal Government (which made their third quarterly payments in April 2025), and wholesale customers (which made their second quarterly payments in January and February 2025).

Favorable Unfavorable

<u>Residential, Commercial, and Multi-Family</u> – Receipts for this category are favorable at \$326.1 million or 59.5 percent of the revised budget. The higher receipts are partly due to higher CRIAC in the Residential, Commercial and Multi-family categories as compared to the revised budget. The April 2025 receipts were higher by \$0.8 million, as compared to the revised monthly budget of \$45.7 million.

Notes: The temporary suspension of collection procedures in order to carry out the upgrade of the billing system to VertexOne in December 2017 was the cause of the increase in accounts receivable over 90 days (from the billing date) for September 2018. The increase in accounts receivable from March 2020 to September 2022 is primarily due to increased delinquencies and deferred payments due to the impact of COVID-19.

Customer Communication

Statements are provided to customers when there is activity on the account. To ensure that all customers are aware of the balances, statements are also mailed annually irrespective of whether there is an activity on the account. For the last three years, annual statements were mailed to customers on March 26, 2024, April 28, 2023, and January 25, 2022.

By law, refunds are to be requested by the account owner within two years of completion (DC Code § 34–2401.10). If not requested in that period, these accounts can be forfeited and closed. DC Water has placed a statement on invoices beginning in November 2019 notifying customers of the District law and that funds would be forfeited unless a refund is requested within two years of project completion or account inactivity. A notification to customers that is posted on our website indicates that unless a refund was requested, funds would be forfeited for projects without activity for ten years. AOBA and DCBIA have been asked to notify their membership to examine the invoices.

For accounts that were forfeited, zero balance statements were mailed to customers on August 16, 2021, September 21, 2022, March 26, 2024, and September 27, 2024.

- DC Water planned to use Rate Stabilization Funds (RSF) for the program adjustments in FY24 but due to the lower than anticipated participation, RSF was not used and \$2M was transferred back to the fund.
- We are monitoring expenditure in FY25 to determine if \$2M will be transferred back to RSF and the funds can be absorbed in 2025 Revenue. The projected expenditure is approximately \$650K.
- In FY26, we are requesting the program be funded at \$1M using the RSF. We anticipate with increased assistance (50% adjustment) and reminders; customers will maintain the plan to receive the benefit.

Management Recommendations

Management requests the Retail Rates Committee recommend Board approval to:

- Extend the Payment Plan Incentive Program until 9/30/2026.
- Increase assistance from 40% to 50% credit of the payments made towards the delinquent balance.
- Fund the program at \$1,000,000 from the Rate Stabilization Fund.
